12 November 1963

MEMORANDUM FOR: Chief, Security Staff, OSA

SUBJECT : OSI Implementation of Access
Approval Policy Directive #3

25X1

1. On 6 November 1963, [] NRO Security Officer and the undersigned conferred with Col. Raymond S. Rife, Deputy Director of Operations, OSI, concerning implementation of the investigative requirements set out in Directive #3.

2. Col. Rife stated that OSI would provide the additional investigative support called for by Directive #3 if the additional investigative requirements were levied on OSI through the appropriate OSD agency and if additional manpower and funds were allocated to meet the workload thus imposed. Col. Rife pointed out that even though the directive has been signed by the Director, NRO, it nevertheless has to be translated into directive form for the particular DOD agencies concerned. Col. Rife advised that security requirements levied on OSI came down through the Inspector General, USAF, from the Office of the Deputy Assistant Secretary of Defense for Security Policy, Assistant Secretary for Manpower, OSD, who is Mr. Walter T. Skallerup, Jr. Col. Rife said that, while he can commit OSI resources to a limited requirement on a one-time basis he cannot and would not commit OSI resources to a requirement of the scope set forth in Directive #3 without additional funds and manpower.

3. Therefore, Col. Rife cannot authorize at this time the utilization of OSI resources in the implementation of Directive #3 for the following:

- A. Across-the-board expanded scope investigations.
- B. Updating investigations which meet AF standards.
- C. Reinvestigation as defined in paragraph VI A 3d.

NRO and AIR FORCE review(s) completed.

4. [REDACTED] was introduced to B/G John S. Samuel, Director, OSI, and the nature of the meeting explained. General Samuel advised [REDACTED] that OSI would assist in any way possible as long as he was given the necessary men and money.

25X1

5. The undersigned will coordinate with Col. Rife, [REDACTED] and Chief, Security Staff, GSA, on the following problems in implementing Directive #3.

- A. Obtaining relief from immediate implementation of Directive #3.
- B. Establishment of security requirements by OSD on the appropriate departmental investigative agencies.
- C. Determination of additional manpower and funds requirement by OSI.
- D. Authorizing the additional manpower and funds for OSI.
- E. Translating the investigative requirements to OSI field elements.
- F. Fixing administrative responsibility and establishing administrative channels for requesting NRO clearances and requesting investigations by OSI.
